LinkedIn: linkedin.com/in/ahmed-abdirashiid-906956446 | Laascaanod, Sool, Somalia

Professional summary

Computer Science student passionate about building practical technology solutions, understanding computer networks, exploring cybersecurity, and developing modern web applications. Learns by building, testing, solving problems, and turning technical knowledge into practical projects.

Education

Bachelor of Computer Science (senior, final-year student)
Nugaal University, Laascaanod, Sool, Somalia
Focus: networking, cybersecurity, software development, cloud computing, network administration, web development.

Technical skills

- **Networking:** CCNA / networking studies, TCP/IP, IP addressing, routing, switching, network administration, troubleshooting, Cisco Packet Tracer
- **Cybersecurity:** security monitoring, SIEM concepts, Wazuh, Linux security, vulnerability testing, DVWA, Metasploitable, security baselines, CIA triad
- **Development:** PHP, Laravel, Python, HTML, CSS, MySQL, authentication, database fundamentals
- **Cloud and systems:** cloud computing, Linux, Windows, virtual machines, system administration

Projects and labs (educational)

- Wazuh security monitoring lab (Windows 11 endpoint, SIEM concepts)
- DVWA web security lab on Kali Linux (authorized lab environment)
- Metasploitable vulnerability-testing lab (isolated lab)
- Cisco Packet Tracer network lab (routers, switches, addressing, routing, segmentation)
- Academic labs: attack surface and risk, incident impact mapping, CIA classification and controls, Windows/Linux security baseline, IP configuration and connectivity

Leadership

- **General Chairperson, IT Faculty** - about one year: student coordination, communication, representation, teamwork
- **Class Committee Member** - nearly two years: collaboration, coordination of student activities, responsibility
